Software Engineer

remyk.000webhostapp.com

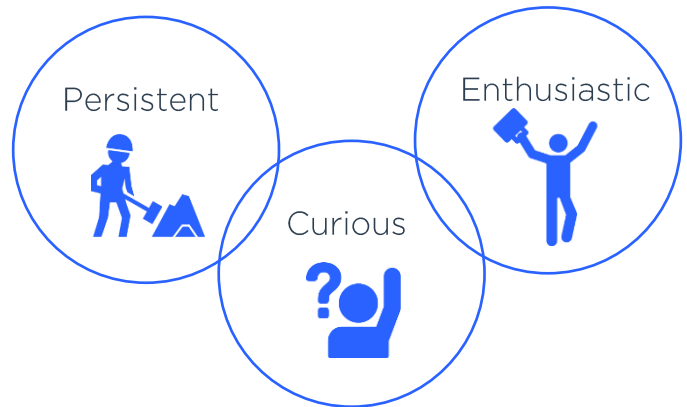

Hi, nice to meet you!

I am a young Frenchman with improvement in my mind and the American dream in my heart. 

EDUCATION

- 2013
2015** University of Technology Degree,
Computer Science (France)
- 2015
2018** Master's degree in Software
Engineering, specialty
UI/UX/Front-end (France)
- 2018
2019** Software engineer at Codelitt
Incubator, in Miami
- Today** Located in France, looking for
opportunities in the US

QUALITIES

LATEST WORK

BAKERY - *React, Redux, HTML/CSS* (personal project, in progress)

I wanted to understand the challenges around an app like Amazon, so I built one that does the same, but just for pastries. This project helps me understand the challenges around front-end components and how they are linked to the Redux store.

AERO - *React, Redux, HTML/CSS* (Codelitt company 2018-2019)

Aero is an app for real estate, it lists the availabilities, their details, and allows to create presentations with them. I learned a lot working on Aero because it was a big project. It helped me improve my debugging skills, productivity and communication.

FLETCHER - *Ruby on Rails, React, Alt.js, HTML/CSS* (Codelitt company, 2018-2019)

Fletcher was my first project with Ruby on Rails. It is a kind of TripAdvisor, but for software/games/companies/equipment, with sharing options between organizations. It allowed me to improve my learning speed, my capacity to adapt, and my full-stack skills.

I have worked on a lot more projects, using Java, C++, C#, SQL and Github (see my website).

DAILY HABITS

- Keeps the body and brain super fit for high performance
- Generates through-the-roof levels of energy
- Creates sharp focus

- Improves analytical thinking
- Sharpens the brain
- Adds more knowledge in engineering/personal development/business/history

WHY HIRE ME

I am always focused on improvement (through books and personal projects).

I love challenges (like living in a country where I don't know anybody, and I've never been to).

I love helping a team deliver fantastic products (especially an American team).
